

New Signal Crossing for Pedestrians and Cyclists at Harbour and Esquimalt Roads

Date: Friday, December 16, 2011

For Immediate Release

VICTORIA, BC – A new signal crossing for pedestrians and cyclists accessing the Johnson Street Bridge from Harbour Road and the Galloping Goose trail will be in operation beginning Monday, December 19 at 9 a.m.

Located at Esquimalt Road and Harbour Road, the push-button activated traffic signal will allow pedestrians to safely cross Esquimalt Road and access the sidewalk on the west side of the bridge. Cyclists will also have a push-button to access the east bound traffic lane over the bridge. The new signal crossing replaces the existing route off Harbour Road over the rail overpass, which will become a construction area.

The detour will remain in place until the new Johnson Street Bridge is complete and open to traffic in 2016. Motorist, pedestrians, and cyclist are advised to exercise caution while becoming familiar with the new intersection.
